TwentyFour Select Monthly Income Fund

This Factsheet is a marketing communication for professional UK investors only

TwentyFour Select Monthly Income Fund is managed by TwentyFour Asset Management LLP and is a non-cellular company limited by shares incorporated in Guernsey and registered as a closed-ended collective investment scheme with the Guernsey Financial Services Commission. Its shares are traded on the Main Market of the London Stock Exchange.

Fund Objective

The Fund aims to generate attractive risk-adjusted returns, principally through monthly income distributions, by investing in a diversified portfolio of fixed income credit securities.

Investment Approach

The Fund will actively invest in a diversified portfolio of fixed income credit securities that exhibit an illiquidity premium, and which the Portfolio Managers believe represent attractive relative value. These securities will include (but are not limited to): corporate bonds, asset-backed securities, high yield bonds, bank capital, Additional Tier 1 securities, payment-in-kind notes and leveraged loans. Uninvested cash or surplus capital or assets may be invested on a temporary basis in cash and/or a range of assets including money market instruments and government bonds. The Fund may also use derivatives. This is only a summary; details of the Fund's investment policy, including investment restrictions, are set out more fully in the Prospectus. Typical investors for whom these Ordinary Shares are intended are professional investors or professionally advised retail investors who are principally seeking monthly income from a portfolio of credit securities. The shares are excluded from the FCA's restrictions which apply to non-mainstream investment products, because the Fund would qualify as an investment trust if the Fund was based in the UK. The Fund is not managed in reference to any benchmark index.

Key Risks

- Limited participation in the potential of single securities
- Investments in foreign currencies are subject to currency fluctuations
- Success of single security analysis and active management cannot be guaranteed
- It cannot be guaranteed that the investor will recover the capital invested
- Derivatives entail risks relating to liquidity, leverage and credit fluctuations, illiquidity and volatility
- Interest rates may vary, bonds suffer price declines on rising interest rates
- Investment universe may involve investments in countries where the local capital markets may not yet qualify as recognised capital markets
- Typically, sub-investment grade securities will have a higher risk of issuer default, and are generally considered to be more illiquid than investment grade securities
- The Fund's investments may be subject to sustainability risks. The sustainability risks that the Fund may be subject to are likely to have an immaterial impact on the value of the Funds' investments in the medium to long term due to the mitigating nature of the Fund's ESG approach
- The Funds' performance may be positively or negatively affected by its sustainability strategy
- The ability to meet social or environmental objectives might be affected by incomplete or inaccurate data from third-party providers
- Information on how environmental and social objectives are achieved and how sustainability risks are managed in this Fund may be obtained from twentyfouram.com/sustainability
