Vontobel Fund – TwentyFour Monument European Asset Backed Securities

This Factsheet is a marketing communication for professional UK investors only

Vontobel Fund - TwentyFour Monument European Asset Backed Securities fund is managed by TwentyFour Asset Management LLP and is a Sub-Fund of the Vontobel Fund, a Luxembourg authorised SICAV. The Fund has been entered into the UK temporary marketing permissions regime.

Fund Objective

The Fund aims to provide an attractive level of income relative to prevailing interest rates whilst maintaining a strong focus on capital preservation.

Investment Approach

The investment policy of the Fund is to actively invest in a diversified portfolio of the European asset backed securities (ABS), rated at least BBB- (or equivalent) at the time of investment by one or more of Standard & Poor's, Moody's Investor Services and Fitch, where the securities will be backed by the assets of institutions and issuers such as, but not limited to, residential mortgages, commercial mortgages, automobile leases and loans, SME loans and other secured bonds. A portion of the portfolio may be held in cash or cash equivalents, such as treasury bills and government bonds, in order to help further enhance the Fund's liquidity. From time to time it is possible that a significant portion of the portfolio may be invested in securities from a particular geographical region.

The Monument European Asset Backed Securities fund is not managed in reference to any benchmark index and does not offer a capital guarantee or principal protection mechanism. Efforts to preserve the fund's capital will be focused on the selection of underlying mortgage European asset backed securities where the investment manager has a high degree of confidence as to the issuer's ability to repay the principal due.

Key Risks

- Limited participation in the potential of single securities
- Investments in foreign currencies are subject to currency fluctuations
- Success of single security analysis and active management cannot be guaranteed
- It cannot be guaranteed that the investor will recover the capital invested
- Derivatives entail risks relating to liquidity, leverage and credit fluctuations, illiquidity and volatility
- Interest rates may vary; bonds suffer price declines on rising interest rates
- The structure of ABS/MBS and the pools backing them might not be transparent which exposes the sub-fund to additional credit and prepayment risks (extension or contraction risks) depending on which tranche of ABS/MBS is purchased by the sub-fund
- The sub-fund's investments may be subject to sustainability risks. The sustainability risks that the sub-fund may be subject to are likely to have an immaterial impact on the value of the sub-fund's investments in the medium to long term due to the mitigating nature of the sub-fund's ESG approach
- The sub-fund's performance may be positively or negatively affected by its sustainability strategy
- The ability to meet social or environmental objectives might be affected by incomplete or inaccurate data from third-party providers
- Information on how environmental and social objectives are achieved and how sustainability risks are managed in this sub-fund may be obtained from Vontobel.com/SFDR

This marketing document was produced by TwentyFour Asset Management LLP ("TwentyFour"), a company of the Vontobel Group (collectively "Vontobel"), for institutional clients, for distribution in the UK. TwentyFour acts as delegated portfolio manager of the Sub-Fund discussed.

This document is for information purposes only and does not constitute an offer, solicitation or recommendation to buy or sell shares of the fund/fund units or any investment instruments, to effect any transactions or to conclude any legal act of any kind whatsoever. Subscriptions of shares of the fund should in any event be made solely on the basis of the fund's current sales prospectus (the "Sales Prospectus"), the Key Investor Information Document ("KIID"), its articles of incorporation and the most recent annual and semi-annual report of the fund and after seeking the advice of an independent finance, legal, accounting and tax specialist. This document is directed only at recipients who are institutional clients, such as eligible counterparties or professional clients as defined by the Markets in Financial Instruments Directive 2014/65/EC ("MiFID") or similar regulations in other jurisdictions, or as qualified investors as defined by Switzerland's Collective Investment Schemes Act ("CISA").

This financial product does not make any commitment to invest in environmentally sustainable investments in the sense of the EU Taxonomy. The EU Taxonomy specific product disclosure requirements do not apply to this financial product. As the investments of the financial product do not take into account the EU criteria for environmentally sustainable economic activities in the sense of the EU Taxonomy, the "do no significant harm" principle according to the EU Taxonomy does not apply to the investments of the financial product. Neither the Sub-Fund, nor the Management Company nor the Investment Manager make any representation or warranty, express or implied, with respect to the fairness, correctness, accuracy, reasonableness or completeness of an assessment of ESG research and the correct execution of the ESG strategy.

Past performance is not a reliable indicator of current or future performance. Performance data does not take into account any commissions and costs charged when shares of the fund are issued and redeemed, if applicable. The return of the fund may go down as well as up, e.g. due to changes in rates of exchange between currencies. The value of the money invested in the fund can increase or decrease and there is no guarantee that all or part of your invested capital can be redeemed.

Where ratings are available from the credit rating agencies specified in the portfolio's rating methodology, including S&P Global Ratings Inc, Moody's Investor Services Inc & Fitch Ratings Inc, TwentyFour will use the highest of the available ratings. Moody's® assigns a rating of Aaa as the highest to C as the lowest credit quality rating. S&P® assigns a rating of AAA as the highest to D as the lowest credit quality. Fitch assigns a rating of AAA as the highest to D as the lowest credit quality. Additionally, where no rating has been requested, or there is insufficient information on which to base a rating, a rating agency may assign a rating of NR (Not Rated). For unrated sovereign issues TwentyFour will adopt the issuing sovereign's credit rating. The average credit quality (ACQ) is provided to indicate the average credit rating of the portfolio's underlying investments' rating and may change over time. The portfolio itself has not been rated by an independent rating agency and is provided for informational purposes only. The ACQ is determined by using a market-weighted equivalent rating and rounding to the nearest rating. For unrated bonds and cash and equivalents, when calculating the ACQ ratings TwentyFour will determine an internal rating by considering all relevant factors, including but not restricted to, the relationship between the bond's maturity and its price and/or yield, the ratings of comparable bonds, the issuer's financial statements and the issuer's credit rating if available. The risk of default increases as a bond's rating decreases, so the ACQ provided is not a statistical measurement of the portfolio's default risk because a simple weighted average does not measure the increasing level of risk from lower-rated bonds. The ACQ may be lower if cash and equivalents are excluded from the calculation. Derivative positions are not reflected in the ACQ.
