TwentyFour Sustainable Global Corporate Bond Fund

This Factsheet is a marketing communication for professional UK investors only

TwentyFour Sustainable Global Corporate Bond Fund is managed by TwentyFour Asset Management LLP and is a sub-fund of a Dublin authorised, open-ended investment company. The Sustainable Global Corporate Bond Fund has been certified by the Irish Central Bank as a UCITS scheme. The Fund has been entered into the UK temporary marketing permissions regime and the scheme is expected to remain authorised as a UCITS while it is in the regime.

Fund Objective

The Fund aims to exceed the return of the ICE BofA Global Corporate Index over the medium to long term, based on a combination of income and capital growth. The Fund has a sustainable investment objective within the meaning of Article 9 of the EU's SFDR, which consists of investing in securities of issuers that contribute towards the Paris Agreement's goal to hold the increase in the global average temperature to below 2°C above pre-industrial levels.

Investment Approach

The Fund will seek to achieve its investment objective by investing primarily in investment grade corporate bonds, hedged to GBP which are consistent with TwentyFour's ESG framework. TwentyFour intends to invest at least 80% of the Fund's Net Asset Value in sustainable investments as defined under the SDFR. In addition, TwentyFour will analyse the potential of each security to provide the Fund with income and/or capital growth which is based on TwentyFour's research of the market and resulting expectations as to how investments may perform and their ability to contribute towards the growth in capital value and/or positive returns in terms of income generated for the Fund by holding such an investment.

Key Risks

- Limited participation in the potential of single securities
- Success of single security analysis and active management cannot be guaranteed
- It cannot be guaranteed that the investor will recover the capital invested
- Derivatives entail risks relating to liquidity, leverage and credit fluctuations, illiquidity and volatility
- Interest rates may vary, bonds suffer price declines on rising interest rates
- High-yield bonds (non-investment-grade bonds/junk bonds) may be subject to greater market fluctuations, risk of default or loss of income and principal than higher-rated bonds
- The Fund's investments may be subject to sustainability risks. The sustainability risks that the Fund may be subject to are likely to have an immaterial impact on the value of the Fund's investments in the medium to long term due to the mitigating nature of the Fund's ESG approach
- The Fund's performance may be positively or negatively affected by its sustainability strategy.
- The ability to meet social or environmental objectives might be affected by incomplete or inaccurate data from third-party providers
- Information on how environmental and social objectives are achieved and how sustainability risks are managed in this Fund may be obtained from www.twentyfouram.com/responsible-investment
